

SMARTKNIT® SEAMLESS SOCKS

1

SMARTKNIT®

THE SMARTER, SAFER CHOICE IN DIABETIC SOCKS

Crew socks now available in wide widths

The super-soft, seamless sock for people with diabetes, arthritis or sensitive feet

- Completely seamless
- Fits like a second skin
- Breathable CoolMax (white), and X-STATIC® (grey, navy, black heathered) fabric
- Bacteria fighting anti-microbial fabric
- Non-Binding Halo™ Top
- Patent #6,158,253

A combination of patented features in SmartKnit socks provides enhanced protection and comfort for neuropathic feet. SmartKnit socks are made the same way a caterpillar spins a cocoon, beginning at the toe and circling to the top. This unique knitting process results in a sock that is completely free of seams and the risks of pressure points that seams can cause. UTHSC studies suggest pressure reduction benefit from seamless socks for people with diabetes. Knit-Rite's patented use of high stretch corespun yarns creates a sock that fits like a second skin with no wrinkling or bunching, with soft, low resistance-high elongation stretch in every direction to minimize chances of circulation restriction.

Ultra-soft Invista CoolMax® with Lycra yarns are designed to wick moisture for a healthier foot environment. Anti-microbial fabric provides protection from bacterial growth and odor in the sock fabric for the life of the sock. The non-binding Halo top accommodates all shapes and sizes without slipping down the leg. And patients like the way SmartKnit socks feel on their feet.

SmartKnit Socks with X-STATIC® – The Silver Fiber™ provide wicking, thermal, and anti-microbial, as well as therapeutic qualities. Available in grey, navy and black. Sold pair.
