

SOLUTIONS THAT FIT™

HUGGER TOP SOFT-SOCK® WITH 3-D TOE SHAPE

New Hugger Top provides a more tailored fit, reduces rolling and bunching and helps maintain sock placement.

Also features a new patented hemispherically knit three-dimensional distal shape.

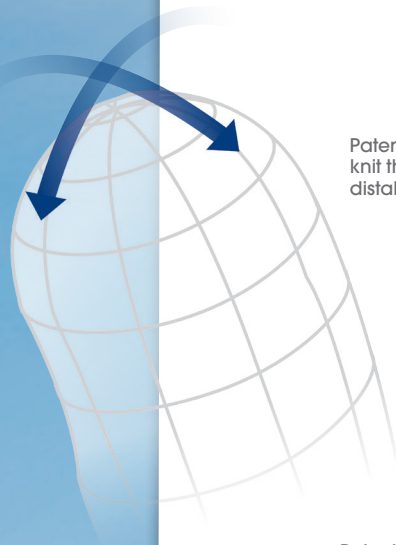

The new distal end shape provides improved fitting qualities and comfort over the traditional flat knit envelope shape of prosthetic socks.

Hugger Top Soft Socks are available in white, pink, and black in a polyester/Lycra® blend. These moisture wicking fibers move moisture away from skin and help inhibit odor in the sock. Soft Socks feel soft and cuddly worn next to the skin, and Lycra provides stretch and excellent fitting qualities.

PROSTHETIC SOFT-SOCK®

New Colors!

Patented Hemispherically knit three-dimensional distal shape.

Patent No. 7,363,778
